

## Welcome to the CNCC Nursing Program

---

The CNCC Nursing Program prepares students for entry-level professional nursing practice as a registered nurse. The Nursing Program is a two-year curriculum, with certain **prerequisite courses required prior to admission** to the program.

There are 18 credits of prerequisite courses for Nursing (See page 2). It is possible for a student to be in progress with some of these courses in the spring semester when they apply to the Nursing Program.

Applications are due April 15<sup>th</sup>. The admission cohort will be between 26 and 28 students in the fall semester. The Program does not maintain a waiting list. Application does not guarantee admission.

---

---

Applications are scored on the following criteria:

- GPA for the 18 credits of prerequisites (see page 2)
  - Pathophysiology (*Must be completed prior to NUR 206, fall – second year.*)
  - Complete twelve or more credits of prerequisite coursework at CNCC
  - Nurse Aide classes (NUR 101 and NUR 170. *Not a prerequisite*)
  - Medical Terminology. *Not a prerequisite*
  - Prior college degree
  - Pre-Admission “TEAS” – more points awarded for higher scores
- 
- 

Students must be able to sufficiently speak and understand English and to comprehend verbal communication of English-speaking clients and healthcare team members. Students must meet physical and cognitive technical standards described in nursing program policies.

Students are encouraged to be pro-active for their successful admission to the program.

- Become familiar with Nursing Program web site <http://www.cncc.edu/academics/degrees-programs/nursing/>
- Request pre-admission advising appointments.
- Know and meet deadlines and other requirements in a professional and timely manner.

Inquiries about the CNCC Nursing Program are handled by the Nursing Program director and/or the Administrative Assistant. Once admitted to the Program, students will have an academic nursing advisor.
